ROAD WORKING.

Steps Taken Toward Organization for 24th-25th.

Proclamation of Governor McCreary Receiving Hearty Reception in This County.

The following proclamation has been issued by County Judge David Boggs:

At a regular meeting of the Lawrence County Fiscal Court, Oct. 7, 1913, attention was called to the recent proclamation of Governor McCreary, designating Friday and Saturday, October 24 and 25, as "Good Roads Day" throughout the State, requesting that the citizens of the Commonwealth devote these days to improving our roads, whereupon it was moved and carried that each Magistrate furnish the names of not less than ten public-spirited men in their respective magisterial districts to be designated as "Good Roads Foremen," and that these men be notified of their appointment as such and be requested to act on the days set apart by the Governor, and to be requested to notify the citizens of their neighborhood of this movement and to urge upon every citizen, old and young, that out of county pride they ought to come out and join in this movement for the betterment of the public highways of Lawrence county. It was also proposed that a circular letter be sent to each of these foremen, notifying them of their appointment and requesting them to assume the trust and begin the work of notifying the citizens at once and fixing a time and place for the meeting of citizens, so that the work may, as far as possible, be done in some systematic way. But where citizens are found who are not able or not willing to meet on some particular highway at a designated place, then urge that they work somewhere, if only on roads leading through their own farms, or past their own homes. These foremen, after the receipt of notice of their appointment, should use every effort to induce every man, woman and child, to help in this most laudable undertaking by the citizens of Kentucky, and especially do it in Lawrence county. It is further requested that these foremen shall, as far as possible, report to the Magistrate of their respective districts the number of persons who work on these days, and this report be furnished each of the local county papers for publication. This meeting was attended by a large number of the leading citizens of the county, farmers for the most part, attracted to the county seat by the meeting of the Fiscal Court, or the County Fair which opens here Thursday. All request that help be extended in this effort at putting the public roads in good condition before the fall rains set in. Louisa citizens, business men, men from almost every calling in life, were present and all indicate a desire to be part and parcel in this laudable undertaking, and pledging to be on hands with some suitable tool and to work on any road designated, outside the corporate limits.

The roads belong to the people and the people should be enough concerned about their own property to join in this public spirited and commendable enterprise. I request and urge every citizen of this county to observe the days designated by Gov. McCreary as "Good Roads Days" by going out and working on some one of the public highways in this county, Oct. 24 and 25.

Very respectfully,
DAVID BOGGS, County Judge.

SUGGESTIONS FOR WORKING.

Mr. Terrell, Commissioner of Public Roads, makes the following good suggestions about work to be done Oct. 24th and 25th:

Divide your roads into districts and instruct the men whom you have appointed assistants in the various districts to see each and every person in their respective districts and request them to report with

such tools as you may deem necessary and teams as they may provide. Each person should be requested to bring his lunch since the hours are from eight in the morning until five in the afternoon.

At this season of the year it is not advisable to attempt placing loose dirt upon the earth roads unless arrangements can be made to have the split log drag used during the fall and winter, but a great deal of good can be accomplished by opening the ditches and cleaning the shoulders of all rubbish and surplus dirt that retard the flow of water toward the ditches. The earth from the ditches and shoulders should be thrown on the opposite side of the ditches from the road or hauled and dumped over the edge of the fills, with the view of widening them. All weeds and undergrowth of every description should be cleared from the ground between the fences and the ditches and all rubbish piled and burned or removed entirely from the right of way. All overhanging limbs and obstructing trees should be removed to permit the free passage of light vehicles and heavily loaded wagons.

Com. of Public Roads.

HEAVY LOSS BY FIRE.

Louisa Canning Factory and Planing Mill Destroyed.

On Sunday night last the building and plant of the Louisa Canning Co., including the machinery of the Louisa planing mill, the property of Augustus Snyder, of this city, was entirely destroyed by fire, nothing whatever being saved. It was eleven o'clock when the first alarm was made, and by the time help arrived the building and a large amount of valuable lumber were wrapped in flames. The building, a large two-story frame, was located in the lower end of Louisa, near the tracks of the C. and O. railroad. All possible effort was made to save the lumber stacked about the mill, but the intense heat prevented anything of this kind being done. There is a fire plug or hydrant near the U. S. Engineer office but it was, from some reason, not used on this occasion. Most of the lumber was high grade, well seasoned stuff, particularly well adapted to inside use. A considerable amount of it was black walnut, wood now almost priceless. Lee Sipple, of Fort Gay, owned some of the lumber. Mr. Snyder's loss in lumber, machinery, etc., will approximate \$2000. The building and the canning machinery and the ground on which the plant stood were the property of the Louisa Canning Co., and represented an investment of \$5,000. The canning machinery and fixtures had been moved to the second story in order to make room for the planing mill. There was no insurance on any of the property which was burned.

The only evidence as to the origin of the fire indicates that it was started by cinders from a locomotive. There had been no fire in the building for two or three days. The building is quite near the railroad. A train had passed about half an hour before the blaze was seen, pulling very hard and throwing out large sparks. The destruction of the planing mill is a decided loss to this section. Its output was good work and was in much demand.

GOOD OIL WELL

Drilled in on Wm. Savage Farm Six Miles From Louisa.

An oil well came in Wednesday on Wm. Savage's farm on Blaine creek near Fallsburg, this county. It is reported to be a good well, estimated at 12 barrels per day natural. If this estimate should prove correct it is the best well in the field. The well belongs to a Huntington company. Tom Hays drilled the well.

The well recently drilled near Peach Orchard is a small producer, but is said to be good enough to justify pumping.

SHOT A BRAKEMAN.

Tom Hubbard Resents Order Given His Brother to Get Off of Freight Train.

Chas. W. Rice, a C. & O. brakeman whose home was at Olive Hill, was killed Wednesday night about ten o'clock near Prestonsburg. Thos. Hubbard, of Floyd county has been arrested for the crime.

Hubbard and two companions got aboard the front end of caboose of freight train No. 88 just as it was leaving Prestonsburg station, coming west. The conductor, Jas. Ball, told the men it was against rules to carry them and ordered them off. They got off of the front end, but jumped on the rear end of the caboose, where brakeman Rice was standing. The conductor told him to not allow the men to ride and he told them to get off. They did so and one of them began to shoot as soon as he got off. One of the nine shots fired struck Rice in the eye and the ball passed entirely through his head. He lived until the train reached Richardson, but was not conscious after the ball struck him. Another brakeman had a close call, one ball cutting a wisp of hair from his head.

A special train was sent from Paintsville as soon as possible, carrying blood hounds, and Hubbard was found under a hay stack, not far from the scene of the crime. The other two men were not arrested.

It was a dastardly crime, according to reports received.

After the above was put into type the following version was received from Prestonsburg:

It is said that one of Hubbard's brothers and two other boys got on the freight train to ride and the brakeman asked them to get off, which they did. Tom Hubbard then asked the boys if they were put off and they said yes, when Hubbard drew his pistol and began firing, never stopping until he had fired nine shots.

Hubbard is a native of Floyd county.

80 YEARS OF AGE.

Congratulations of Relatives Extended to Mrs. Nancy Billups on Birthday.

The comfortable home of Mrs. Nancy Billups, of this city, was the scene of festivity and rejoicing on Wednesday evening last, the occasion being the celebration of the eightieth anniversary of her birth. The venerable and highly respected lady was much surprised when she discovered that her natal day was to be observed in any particular way, her only daughter, Mrs. John Cummins, who for many years has been her aged parents devoted companion and helper, had, with the aid and connivance of some other kin, managed to keep "Aunt Nancy" profoundly ignorant of what was going to happen. A goodly number, all of whom excepting three or four were related to Mrs. Billups by blood or marriage, assembled to greet their friend and relative, all bringing some token of love and esteem, all tendering congratulations and wishing for her who was rounded out her four score years many additional years of happy life. An hour or more was spent in animated conversation, much of it reminiscent, and in apt story and playful jest, much of which was inspired by the occasion which had brought so many together. While this was going on in the reception room about a dozen of the smaller fry were making merry in the upper rooms—noisy but not boisterous enjoying themselves after the manner of their kind, and probably impatiently waiting for the coming of the goodies which did come in delightful abundance and quality. The grown ups were called into the dining room about eight o'clock, where a most delicious course of chicken salad, cake, cream and coffee was served. In the center of the table was the regulation birthday cake, with its proper number of parti-colored candles. At the end of the feast these were lighted and greatly admired. Then after renewed

good wishes for her in whose honor the affair was given good nights were said, all expressing pleasure at having been present. Mrs. Billups looks scarcely a year older than she appeared a score of years ago. She is remarkably active for an octogenarian, and bids fair, accidents barred, to become a centenarian.

BROKE HIS RIGHT ARM.

Mr. Atwell Wellman, of this place was the victim of a very painful accident on Friday last. He was standing in a chair, the better to reach some apples in his yard, when the chair upset, throwing him to the ground. In his fall his arm was in some way caught in the chair back and broken. Both bones of the forearm were fractured and his thumb was dislocated. The arm will be useless for a good while. Drs. York and Wellman adjusted the fracture.

NEW HUNTINGTON BANK.

A new bank has been organized at Huntington with Dr. M. G. Watson as president, and M. J. Ferguson cashier. The name is the Ohio Valley Bank and the capital is \$100,000, with \$20,000 surplus paid in.

Ways and Means whereby good graded roads may be had will be discussed. The weakness of our present law and why our roads are in their present bad condition will be shown. All lovers of good roads, men, women and children, are earnestly solicited to be present.

The Hon. J. Howard Williams, Democratic nominee for State Senate will be present at such of these meetings as he can attend.

GUFF WELLMAN DEAD.

Passing of a Popular Traveling Salesman of Catlettsburg.

William McGuffey ("Guff") Wellman, a prominent citizen of Catlettsburg, died in that city on Saturday last and was buried in the Ashland cemetery on the following Monday. He is survived by a widow and two children, a son and a daughter. His wife was Miss May Goble, a daughter of Mr. and Mrs. Mont Goble, and was born and grew to womanhood in this city. The daughter is Mrs. Curtis Montague, of Ashland, and the son is Montraville Wellman, of New York. Mr. Wellman was 54 years old. About a year ago he had a long siege of typhoid fever, being desperately ill. So long did he become that at one time he was reported dead. From the effects of this protracted illness he never fully recovered. He was never himself again, and it is said that his demise was the result, partly, of the previous sickness.

Mr. Wellman was a traveling hardware salesman, and none knew the business better or was more popular than he. He was genial and companionable, and his death in the prime of life is deeply regretted by a large circle of relatives and friends.

W. D. Pierce was a business visitor to Cincinnati this week.

KILLED BY TRAIN.

Robt. Ransom, Formerly of this County. Killed Near Catlettsburg.

Mr. Robert Ransom, who some years ago lived on the waters of Two Mile creek, about two and a half miles from this city, was killed by a C. and O. train, near Normal, on Monday last. His son, Thaddeus, who owns and operates the farm where his father lived prior to his removal from this county, received the sad intelligence of his father's death shortly after it occurred and immediately went to Normal.

The following from the Ashland Independent will interest the many friends and acquaintances of Mr. Ransom in this section:

Robert Ransom, aged 68 years, who for the past nine years has made his home in this vicinity, was struck by a freight train at Keyes Crossing Monday evening at 5:42 o'clock, and so badly injured that he died at 7 o'clock at the King's Daughters' hospital, where he was removed, following the accident.

The unfortunate man was injured internally and his right hip was badly crushed.

The unfortunate man, who made his home with Peter Golden, of Normal, was waiting to see Deputy Sheriff Geiger drive along to his home at Catlettsburg in order that he might pay his taxes, and had started across the C. & O. tracks to the road when he stepped directly in front of the "Bull dog" freight, which runs between Russell and Huntington, and which was coming west. Two men who were near the crossing saw the aged man's danger and called to him, but he was evidently in deep study, as he apparently did not hear them or the approaching train.

The train was stopped as quickly as possible, and Ransom placed aboard the train and brought to the C. and O. depot here, where he was met and taken to the King's Daughters' hospital, where he died soon afterwards.

Ransom, who was a cattle dealer and real estate agent, leaves several children. One son, Thad, lives at Louisa, and was here this morning arranging for the burial of his father. A son lives at Charleston.

GOVERNOR CAN NOT COME.

Big Railroad Tax Suits in U. S. Court Detain Him in Frankfort.

Gov. McCreary was compelled last Saturday to cancel the visit which he had hoped to make to Louisa on Friday or Saturday of this week, in response to invitations from the County Fair and the K. N. C. The United States Court fixed those days to take up the most important matter now before the State—the valuation of the railroads, and the Governor felt that he could not afford to be absent.

He promises to come to Louisa later to assist in an educational rally. From his letters to the Kentucky Normal College and the officials of the Fair we take the following: "I had sincerely hoped to be able to go to Louisa on the ninth, tenth or eleventh of October, but our United States Court, which has been in session here for two weeks, in one of its last orders continued the four important railroad cases in which the State is a party and which involves about \$400,000.00, to the ninth and tenth of October. In addition to that, a circuit judge has just resigned and there is a contest; and following this, of course, is the regular routine of business in the executive office."

I have just made a speech at the opening of the Kentucky Perry Centennial Celebration, and a few days before that I spoke at the State Fair. A short time prior to that I made a speech at Put-in-Bay, Lake Erie, on the Centennial Anniversary of the Victory of Commodore Perry. A few days before that I made a speech at the Centennial Anniversary of Masonry at Richmond Kentucky.

You will readily see that I am

compelled to be here when the railroad cases are taken up for consideration.

I regret this more than I can express in a letter, but I will positively come to Louisa when I get rested and when my engagements will permit me to make a speech there. Very sincerely yours,
JAMES B. MCCREARY.

SERIOUS OPERATION.

Mrs. Forrest Childers, of Wood, Floyd-co., is at the Louisa hospital, recovering from the effects of a serious operation. It was for the relief of a long-standing trouble and was successful. She was a patient of Dr. W. W. Wray, of Richardson, who assisted Dr. York in the operation, which was done on Saturday last. Mrs. Childers is a daughter of Tom Maynard, of Kise, is 35 years old and the mother of two children.

CITY COUNCIL.

At the meeting of the city council on Tuesday night last the waterworks company was paid \$425 and the city marshal \$150. Ulysses Wilson and George Atkinson were ordered to pave the south side of their respective lots.

THE COUNTY FAIR.

Large Crowd and Fine Exhibits Now at The Louisa Fair.

The Lawrence County Fair opened Thursday most auspiciously. The weather up to the hour this was written was simply ideal—all that could be desired. The first day of a fair is generally a day of preparation, and much in the way of getting ready was done yesterday, but there was much to be seen on that day. Temporary stalls had been put in the public square along the fence, and in these were shown many fine hogs and cattle, while tethered in the yard were blooded horses and colts. The court and jury rooms were allotted to the ladies for the display of the products of kitchen and dairies—pies, cakes, pickles, preserves, butter and the like—needlework in all its useful and ornamental forms. Right here the NEWS desires to call attention to and emphasize the fact that all the various articles in the department in which the ladies make an exhibition can be entered free of any cost whatever and compete for any premium which may have been offered for such a display. So bring in at any time during the fair any article which you may desire to have your friends to see.

Prof. J. H. Carmody, of the Agricultural Department, is here, and Prof. Bryant, President Henry Barker, of State University, and Commissioner of Agriculture Newman will be here Friday. The inoculation of hogs will be done at the college building, and Carmody, Bryant, Barker and Newman will speak there Friday night. Let all turn out and hear them.

The resurrected, rejuvenated and much improved Louisa brass band is furnishing good music under the direction of Mr. Shank.

CLAUD SEGRAVES KILLED

Notorious Criminal of This County Shot in Eddyville Prison.

Eddyville, Ky., Oct. 3.—C.C. Jones foreman in the Kentucky Whip & Collar Company at the penitentiary, this morning shot Claude Segraves, an unruly convict who was attempting his life with a knife. Jones had reported Segraves to the guard for cursing him and some time afterwards Segraves, who ran a machine, ran up behind him with a monkey-wrench. As Jones wheeled to protect himself he saw Segraves coming at him with a drawn knife and pulled his pistol and shot down through the floor to stop him, and when that failed shot him through the left shoulder. The wound is a bad one, as the bullet ranged toward the heart, and it is feared it will result fatally.

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

STARTING AN APPLE ORCHARD.

The site for an orchard should not be low or level but it should be located on land that is somewhat rolling so as to provide good air drainage. Care must be taken not to plant the trees on too steep a hillside, because of the difficulties in spraying, tilling and harvesting. Broad, flat bottom lands above a river are often good, because the river "draws" the frost and the land is very easily worked.

The question of exposure is of prime importance in the planting of trees. In general, northern and eastern slopes are more fertile than southern or western slopes.

A northern or eastern slope is to be preferred in this region because such exposure aids in holding back the buds in the spring when there is danger of damage by freezing. Where early ripening fruits are wanted it is probably better to plant on land with a southern exposure. If there happens to be a river flowing close by, advantage should be taken of the slope facing it regardless of the way the land lies, unless it is altogether too steep. The river will serve to ward off the frost.

Apples thrive on a great variety of soils but in general they seem to do best on well drained clay loam. Any land that will grow good crops of corn or Irish potatoes is considered fit for an orchard provided the location is such that the land will drain readily. Trees cannot thrive in thin, badly worn soil where an impervious subsoil is near the surface. Such a soil is likely to hold too much moisture, thereby causing the trees to be stunted and weakly. If it is necessary to plant an orchard in a soil that holds too much moisture, provision should be made for artificial drainage before the trees are planted. Tile is the most satisfactory form of drainage to install, even if the initial cost is a little high. Brush and stone drains are unsatisfactory because they have to be taken up and replaced too often in order to keep them in good working condition.

Soil containing abundant plant food should be selected for the orchard so as to insure a hardy vigorous growth from the very start. It is poor practice to crop land for several years, thereby exhausting the soil of the plant food, and then plant it in fruit trees expecting them to care for themselves. Kentucky has many orchards started

in just this manner and in nearly every case they have failed. It is best to begin building up the soil, one or two years previous to the time of planting, by sowing some leguminous crop and turning it so as to supply plenty of humus and moisture to the trees. Young growing trees demand a large amount of nitrogen and moisture in order to make a thrifty growth, and a little work in building up a soil will be well repaid in a short time.

Before locating an orchard for commercial purposes it is well to go into a community where apples are already being grown commercially because the markets in such a region are already well established. The fact that there are no orchards in a region should not prevent one from going into the fruit growing business provided he has the proper conditions. For an orchard to be successful it should be located where there is a good local market or where the transportation facilities are good. Plant as close to a railroad as possible so as to avoid long hauls and danger of bruising the fruit before it reaches the market. There are many fine fruit locations to be found in Kentucky close to good markets and within easy hauling distance of the railroads. The land in many cases can be bought very cheap and with a little time and work it can be made valuable for orchard purposes.

FARM FOR SALE. Situated on Hulet Branch between Fuller Station and Potter Station. About three quarters of a mile from each station. 100 acres. Good outlet, and very good dwelling house five rooms, good out buildings, good well, good garden and good orchard.

Snyder Hardware Company,
Funeral Directors

Our charges are reasonable and we will supply with the same careful attention. Anything required from the lowest priced to the most costly arrangements.

We will gladly receive orders by telephone, and deliver caskets, coffins and robes to any part of the county.

FARMS FOR SALE.

This should appeal to men that want to raise cattle, hogs, sheep, or any kind of stock, and the man that wants to garden, raise fruits or berries, etc., for the markets are excellent here. The market gardener heads the list, the dairyman next, the live stock man next, etc. I have farms suited for all purposes, many of them on the best pikes in the county, some on good roads, all handy to school and church. I get a good many questions asked me: "Are there any negroes in the school district near such a farm you have advertised?" I have no farms in negro settlements, so there are no mixed schools here. Many of the farms I have for sale are close to my own. You may find men that will tell you before you get to me that it is too far out. Don't stop. Come on. I can show you better. The land is better out here, is much smoother and the roads are just as good. I have several good farms for sale with good locations for store, blacksmith shops, and many good opportunities for men to make money. Come and see me before you buy. Write or call me over the Bell phone. Write to Sciotoville, Ohio. Always come on No. 15 on the N. & W. Write four days before you start. I will meet you with rig.

We want to enroll at least 600 members at this meeting.

FIVE MADE HAPPY.

The Rev. S. F. Reynolds, recently made five people happy. On Saturday, October 5, he married Miss Pearl Mars, of Columbus, Ohio, to Mr. Mark R. Dixon, of the same city.

On Sunday, October 6, at their new home near Louisa, he married Miss Mary Woods, daughter of Jas. Woods, who recently died on Lick creek, to Thomas Wilson, son of Marlon Wilson, of near Louisa. The fifth person made happy was the parson himself.

DEATH OF PERRY POWELL.

P. A. Powell, who was born at Kavanagh, 65 years ago, died suddenly at his home in Huntington Friday evening, his death being the result of a stroke of apoplexy.

Mr. Powell was returning home, and when at a point on English street midway between Fifth and Sixth avenues, was stricken. He staggered and fell, and was assisted into a residence where he was given attention. He asked for a drink of water, and soon expired.

He married, in early life, Miss Amelia Burgess, a member of a well known Kentucky family, and one daughter, Mrs. Alleen Waldron, wife of Captain Will Waldron, U. S. A., is the only surviving child.

Mr. Powell was widely known all along the Big Sandy, both in Kentucky and West Virginia, and his business activities and sterling worth won him a wide acquaintance and hundreds of friends. Mr. Powell's aged mother, is 96, and resides with one of her daughters at Kavanagh.

The Rev. Ollis Hamilton, pastor of the Louisa Baptist church, went to Louisville Monday to attend the annual meeting of the State Sunday School Association. Mr. Hamilton was sent by his church and Sunday school, a courtesy which is appreciated by him.

VIOLET.

INDIGESTION, GAS OR SICK, SOUR STOMACH.

Time It!—“Pape's Diapiesin” makes your upset, bloated stomach feel fine in 5 minutes

“Really does” put bad stomachs in order—“really does” overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapiesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment “Pape's Diapiesin” comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapiesin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

A LONELY BOY.

LOUISA PROOF.

Should Convince Every Louisa Reader.

The frank statement of a neighbor, telling the merits of a remedy, bids you pause and believe.

The same endorsement By some stranger far away Commands no belief at all.

Here's a Louisa case. A Louisa citizen testifies.

A. Wellman, butcher, Cross St., Louisa, Ky., says: “Doan's Kidney Pills are the finest kidney remedy I ever used. My kidneys gave me great annoyance for years. The action was irregular and the kidney secretions were unnatural. I also had backaches. Different medicines I used gave me no benefit until I began taking Doan's Kidney Pills. In a short time I began to feel better, and before long I was strong and well. I never tire of praising this fine preparation.”

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—DOAN'S—and take no other.

SUITS

Tastefully Displayed

To Show Their Quality Fabrics and style Correctness

Our Suit Display is indeed one of exceptional merit, representing as it does a superb collection of all the season's most desirable styles and materials in misses, juniors' and ladies' sizes.

We candidly believe that you owe it to yourself to visit our suit department before buying these fresh, distinctive and distinguished looking suits are certainly worthy of your consideration, and doubly so when you note the moderate prices attached.

The general price range from \$15.00 to \$75.00 makes it possible for us to SUIT every whim and fancy and we only ask an investigation.

Our Display of the Popular Priced Suits

\$25.00 to \$35.00

Is Proving Very Interesting

In this range of prices our display is exceptionally large, showing all the approved autumn and winter colors in serges, basket and granite weaves, chevrons, novelty mixtures, Bedford cords and broadcloths, most of these in the plain tailored styles, and the popular cutaways, some though are in the square cut effects demanded by quite a few.

We can hardly put too strong an emphasis on our suits at this price and ask you to come, examine them thoroughly and see for yourself if they are not gems in the tailoring art.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR.

Bring back its gloss, luster, charm and get rid of dandruff—Try the moist cloth.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two week's use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

Mr. Hincke, formerly clerk at the U. S. Engineer office at this place, has indeed gone to Denver. The NEWS sent him to Denver several weeks ago, but he didn't go that time as his successor stayed only a few minutes in Louisa and Mr. Hincke went on duty again. And now he is off again.

Chitt. Holbrook Suffers Broken Leg.

H. C. Holbrook, the well known traveling salesman of the Clay-Gunnel Shoe Co., of Catlettsburg, suffered a broken leg Friday afternoon when he jumped from a buggy in which he was riding. As Mr. Holbrook was driving out 13th street, this city a strap on the harness broke and the horse started to run away. Mr. Holbrook jumped from the buggy and his left leg was caught in a wheel of the buggy and was broken. The injured man was removed to the King's Daughters' hospital, where he was reported as doing nicely this morning.—Independent.

CLAUDE SEGRAVES KILLED.

(Continued from page 1.)

affidavits to the affair. Warden Chilton pronounced Segraves one of the most hardened criminals with whom he has had to do. Only yesterday a knife was taken away from Segraves by Capt. James Back, of the death house. It is said that Segraves had said that he would kill Jones at the first opportunity.

Segraves is from Louisa, Lawrence-co., and is serving a life sentence, having been convicted three times. He is 22 years old. Segraves, it will be remembered, was sent up for breaking into a safe belonging to Dr. J. J. Gambill, at Blaine, and stealing a considerable amount of money.

It is possible that there may be speaking at the court house at one p. m., Friday instead of at night. Be in readiness for the time, which will be announced later.

THE NORA KENNISON CLUB.

The Nora Kennison Club Monday held its first meeting since the summer recess. The attendance was good. Because of illness the president, Mrs. Kennison was unable to be present, and Mrs. G. W. Wroten, one of the vice presidents, occupied the chair. The call of the roll was answered by every member present giving a quotation from Oliver Wendell Holmes, poet physician and novelist. After this a biographical sketch of Dr. Holmes was read, followed by an open discussion of the distinguished author. This was followed by the reading by Mrs. H. C. Osborn of Holmes' Chambered Nautilus. The programme shows a distinctly Holmes occasion.

It is sincerely hoped that by the next weekly meeting of the club its accomplished president, Mrs. Kennison, will be able to be present and to present a program of work for the year. Membership and attendance at the meetings of the club offers an opportunity for mental culture which should be eagerly embraced.

MOTHER! IF CHILD'S TONGUE IS COATED.

If cross, feverish, constipated, bilious, stomach sour, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is of times all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." Don't be fooled!

"CASCARETS" ALWAYS

STRAIGHTEN YOU UP

If Costive, Headachy, Bilious, Stomach Sour, Breath Bad—Clean Your Liver and Bowels.

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

FALLSBURG.

Fallsburg seems lonely today as Dr. Rice's family left this morning for Cincinnati where they will spend a few days. They will go from there to Nebraska, where the Dr. has a brother that lives there, they will spend a month or so there, and from there to Canada, where he has another brother and then they will spend the remainder of the winter in California and we hope they will have a nice time as they are such good people.

John Ekers' child that has been sick, is some better.

Uncle Jack Webb has built a nice cellar.

Dr. Carter sold a nice bunch of cattle recently.

Mr. Norris and wife have returned from Cincinnati with a nice line of goods.

Mr. Boggs has almost got the repairing of the mill completed.

Aunt Cass Cooksey has returned from Ashland, where she has been visiting relatives for the past week. Neallie Boggs has been quite sick but is better now. KY. GIRL.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CLEGG, & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

More Economical Both in Use and Cost CALUMET BAKING POWDER

—And it does better work. Simply follow your customary method of preparation—add a little less of Calumet than when using ordinary baking powder. Then watch the result. Light, fluffy, and evenly raised—the baking comes from the oven more tempting, tastier, more wholesome.

Calumet insures the baking of an expert. Ask your grocer today.

The C. & O. coupon commission was here last Wednesday for the purpose of receiving coupons from holders to be audited and paid, in accordance with the decree of the Circuit Court of Kanawha-co. recently made. The business done here by the commission was very light compared with that done in some of the other counties. This is accounted for by the fact that only a small portion of the C. & O. Railroad runs through the county, and those of our citizens who hold the most coupons live in the northern part of the county and they can go to Huntington more conveniently than come here. Wait till the N. and W. coupons are chased in and you will see some business done in old Wayne county.—Wayne News.

Huntington, W. Va., Sept. 29.—Every inhabitant of Huntington and other cities whose drinking water is being pumped from the Ohio river, if they be water drinkers, are taking into their systems daily a considerable quantity of gold.

Not only is the precious metal being wasted in that manner, but the streets are being sprinkled with the metal-bearing liquid.

This fact was disclosed to-day in an analysis of the water made by James C. Blake, a chemist, who declares that his analysis shows that every half pint of water taken from the city mains contains 1 per cent of gold, also traces of silver and copper.

Whether the gold exists in sufficient quantity to pay for the separating of it from the Ohio river water Mr. Blake was unable to say.

Representative S. U. G. Rhodes, whose 16 year old son, "Joe," was found dead with a bullet hole through his right temple last Thursday morning, was permitted to attend the funeral services, which were held in Jackson-co., and to come on to Williamson to see his family. He arrived in the city Monday evening and went on to Ben creek Tuesday where his two babies are being cared for by their grandmother, Mrs. A. Howard Toler.

Mr. Rhodes was accompanied by Deputy Sheriff L. H. Bobbitt, of Webster-co. Statements have been made in the press that Governor Hatfield and Judge O'Brien authorized the trip but the facts are that the matter was not brought to the attention of the governor and that Judge O'Brien refused to take any action. It was the sheriff of the county who did Mr. Rhodes the kindness.

CHARLESTON, W. VA., Oct. 2.—"Devil Anse" Hatfield, aged seventy-four, the most picturesque of West Virginia's mountain feudists, who has signed a contract with a vaudeville circuit, was attacked by stage fright today when he made his initial appearance at a local theatre, but the veteran mountaineer soon regained his composure and related the story of his "plistol troubles" in the West Virginia and Kentucky Mountains. "I got the name of 'Devil Anse' while I was in the civil war. I was a captain in that, and it struck with me ever since," said the aged veteran. "I always try to treat my fellow-men as I would like to be treated, but some of them, it seemed, wouldn't let me treat them that way. I had to keep some of that sort away from me with my guns, and I succeeded fairly well. It did not take them long to find out that they could not tramp on me."

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the women's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health.

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

KENTUCKY NEIGHBORS.

Representative W. J. Fields recommended Jacob Fisher, a life-long Democrat, for appointment as postmaster at Russell. Russell recently was advanced to the presidential postoffice class.

FRANKFORT, KY., Oct. 3.—Accommodating deputies of the County Clerk who issue marriage licenses from various points in Magoffin-co. to the mountain swains and lasses, thus saving them the trouble of a trip to the county seat, but who neglect to make returns of them to the office, were criticized in a report filed by Inspector and Examiner Sherman Goodpaster. He said: "The records of the office of the County Clerk are well kept except that he permits deputies throughout the county to issue marriage licenses, none of which is returned to the office nor recorded, as the law requires. It was impossible to estimate the number issued, as there was no accurate way of counting them."

He covered into the State treasury the following amounts collected from county officials of Magoffin: County Clerk F. C. Lacy, \$53.58; Sheriff Robt. Reed, \$25.86; Circuit Clerk A. H. Adams, \$71.07; County Judge R. C. Salyer, \$7.20; J. G. Arnett, trustee of the jury fund, \$8.

In Pike-co. he collected \$283.50 from W. K. Steele, former trustee of the jury fund. In Clay-co. he collected from Circuit Clerk William Rice \$6.84; from Sheriff William Marcum, \$29.75.

In Knott-co. he collected the following sums: From County Clerk R. N. Amburgey, \$17.67; from Circuit Clerk J. B. Smith, \$36.97; from Sheriff Farris Hayes, \$64.06.

Broom corn, agriculturists tell us, yields on an average one ton to the acre. You know without having to be told that the average yield per acre for corn is fifty bushels—nubbins and all. Now we do not recommend the leaving off of the corn crop entirely, for its cultivation is very essential; but suppose you have ten acres of corn in cultivation this year; those ten acres might produce the average of fifty bushels to the acre, which in good soil and with favorable climatic conditions would mean 500 bushels for the ten acres.

Those 500 bushels, if sold for 75 cents a bushel, would bring you \$375. Suppose you had ten acres in broom corn, that had yielded one ton to the acre, making ten tons, which, according to the way the new crop sold last week—which was from \$100 to \$160 a ton—would have brought you, even at the minimum price, \$100 a ton, \$1,000, or \$62.50 more per acre than your corn brought; and if you had gotten the maximum, \$160 a ton, it would have brought you \$1,600, or \$122 more to the acre than the corn brought. So you see that forty acres of broom corn, forty tons, at \$100 a ton would mean \$4,000. Will forty acres of corn bring \$4,000?—Campton Courier.

Mrs. Newton Gullett, of Caney, Ky., dangerously wounded, with a bullet through her body which paralyzed her from the waist down, arrived in Lexington on the L. & E. train at 4:30 o'clock Saturday afternoon, and was taken to St. Joseph's hospital, where after an examination it was stated that her wound was serious and might cause death.

Mrs. Gullett was accompanied by her husband and her father, and was attended by Dr. Wheeler, of Cannel. The shooting, as stated in a telegram to the Leader on Saturday afternoon, occurred at the Gullett home some 30 miles from Jackson, at seven o'clock Saturday morning, and the bullet is said to have been fired by Gullett. The dispatch published in the Leader stated upon the arrival of the train from Jackson, but the police were not advised of the shooting until after eight o'clock on Saturday night and Gullett and the father of the wounded woman spent the evening at the hospital, unconscious of the fact that the police were seeking Gullett.

Upon learning that Gullett was wanted for the shooting, Lieut. Donlon arrested Gullett as he was leaving the hospital and placed him in the city jail.

TRAPS OR PISEN.

Mr. Luther, our up-to-date photographer has engaged in a war of extermination of rodents, having caught fifteen in one day this week. The complaint is general that there is an influx of rats and mice and if all would follow Mr. Luther's example these pests would soon be exterminated. ANTI RODENT.

OUR SCHOOL DEPARTMENT.

I wish to call the attention of the teachers of Lawrence county to the two educational gatherings to be held in the near future, and to urge as many as possible to attend these meetings. The Big Sandy Educational Improvement League will hold its next session at Pikeville, Oct. 17 and 18, and the 9th Dist. Educational Association will be held in Maysville, Ky., Nov. 21 and 22.

Any teacher who attends either or both of these meetings will be allowed to count the time necessarily lost from his school in attending. The membership fees in either organization is 50c and if the teachers will write me at once who wish to enroll I will deduct this amount from your salaries and send in your enrollment fees to either organization.

Lawrence county teachers have a record for progressiveness and I trust every teacher will enroll in one or both of these organizations, and that Lawrence county will have no cause to be ashamed of her delegation at either of these meetings.

JAY O'DANIEL.

Greenup, Ky., Oct. 1, '13.

DEAR SIR:—The Ninth District Educational Association will meet at Maysville on the third Friday and Saturday in November. I am writing the superintendents of the nineteen counties of the district, asking that they organize their teachers on the second Saturday in October, collect membership fee of fifty cents from all who will enroll as members of the association, and forward enrollment and check to me, in order to facilitate the work of the Executive Committee.

The Superintendent and Board of Education of this county will give the day (Friday, Nov. 21) to all teachers who will attend the meeting. Would you be willing to do this also? We desire the Ninth, which is the largest, to be the banner district of the state. We will have with us some of the best talent that can be secured, and hope with your cooperation to make this the most interesting meeting the district has ever had.

Very Respectfully,

ANNIE M. DAVIDSON, Sec. & Tres.

On Saturday, Sept. 20 and 27, the patrons and pupils met at the school house to work the road, though the teacher has been absent both times. They are working with great interest. While their teacher was away, Saturday night Emory E. Wheeler conducted a pie mite and raised \$9.05.

DIV. 3, SUB. DIST. 2. The following are the names of those attaining the highest average on 2nd month examination:

Grade 8. Willie Swetnam 92½
Grade 6. Ossie Cordle 97 3-8. I also held the first month examination with good results.

I have graded my school and am following the course of study as outlined by the month as near as I think possible under existing circumstances.

My average attendance has been very good. FAIRY PACK, teacher.

Report of Ed. Div. No. 2, Sub-Dist. No. 6. There are 46 pupils in census report, have enrolled 32 for 2nd mo. and 33 for 3rd mo.

Have held examinations. The following is a report of 2nd mo. work: GRADE 6. Audrey McGranahan 77 5-8; Dovie Spencer 77 3-8; Telle Thompson 72 3-4.

My average attendance for second and third months were 24. We had a pie social on Friday night, Sept. 26 and raised \$3.75. GYPSY ESTEP, teacher.

The pie mite at Blaine for the improvement of the school was quite a success. Several of the patrons were present and contributed liberally. The proceeds \$11.85 will be invested in improvements for the primary room.

If we make this column a success, the teachers must report. Now that the third months examination has been held you should report promptly. EMORY E. WHEELER.

Fairlie Pack, teacher at Wilbur reports \$7.55 raised at a pie mite.

Fred Steele's school raised something more than \$17.00 at a pie supper Saturday night.

Mr. Ancient — "I tell ye, the good old days were the days for me—when you could go in the streets without being knocked down with these old automobiles and living didn't come so high!"

Anty Drudge — "Yes, and you could slave from morning to night, and then not get your work done. I'll take these days, when I can have all the modern helps for women."

Anty Drudge takes little stock in "the good old days." These days are good enough for her, because these days she can get Fels-Naptha Soap to make her work easy.

Every woman has a chance to see how Fels-Naptha Soap makes dirt disappear. It's wonderful! No hot water or elbow grease needed. Fels-Naptha Soap is the only soap that does its work best with cool or lukewarm water without hard rubbing.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

Gossip. By gossip we do not mean friendly words with a neighbor about our friends, but unkind remarks, innuendoes, the telling of some cruel thing that Mrs. E. said about Mrs. A. If you have nothing kind to say about a neighbor acquaintance, say nothing at all. A story grows with each repetition until at last "behold how great a matter a little fire kindleth." Let not our tongues defile our souls by distilling deadly poison, but let the words of our mouth be worthy, kindly, helpful, noble.

Scolding is mostly a habit. It is often the result of nervousness and an irritable condition of the mind and body. A person is tired or annoyed at some trivial cause and forthwith commences to find fault with everything and everybody within reach. Scolding is a habit very easily formed. It is astonishing how soon one becomes addicted to it and confirmed in it. It is an unreasoning and unreasonable habit. Persons who once get in the habit of scolding always find something to scold about. If there is nothing else, they begin scolding about the mere absence of anything to scold about. It is an extremely disagreeable habit. It is contagious. Once introduced into a family it is pretty certain in a short time to affect all members.

We all owe to others as many cheerful smiles and kind words as we can bestow, for life is what we make it, and small favors, little kindnesses, a word fitly spoken, often heals a much bruised heart, and tender remembrance is cherished for the giver. Never show to an unexpected guest their coming worries or upsets you, but give them a smile and a word of welcome and you will be surprised how quickly worries will roll away and how easily the noonday meal will be done, and how much pleasure

there is in that afternoon chat, then there is nothing to think about but to enjoy the present. Never indulge in the habit of maliciously speaking of others, for it is easy to say nice things and it is all a habit. Look on life as a doer not as a dreamer.

It is not highly amusing, if not provocative of wrath, to hear a man complain of his home being cheerless when he adds nothing to its happiness? A man is greatly responsible for the ozone of his home. The day to his wife may have been one of unusual care and hard work, but if the husband comes in cheerful from the field or his work outside, the weariness and care-worn look will disappear from his wife's face. A few sharp words we can always excuse, for we always attribute them to the over-taxed nerves, but we can find no plausible excuse for sullenness on the part of the husband.

A touch of kindness in this busy rush,
A proffered hand to help us fight the crush.
A cheerful word that smooths a heavy heart—
Have you these small things assumed your part?

Extravagant dress has broken more husbands than it has made model wives.

Everyone feels at home in the presence of a joyous, cheerful, genial spirited person.

Usually if we postpone a worry for a day or two it will fail to keep its appointment.

The thief who steals your peace of mind is meaner than the one who steals your property.

Teach your girl how to cook and if she does not thank you somebody's son will thank you for her.

In choosing our homes the first consideration must be to see that there is abundance of light, air and sunlight. A dark room is only fit for a storeroom. Where the sun comes, according to the old adage, the doctor stays away; or as the Venetian says, "where there is light there is joy."

It is as easy to say kindly things as it is to make unpleasant remarks. Watch yourself a bit as you move about your home—is it a hard word and a frown? If the latter, pull yourself up short and make up your mind the world shall be bright with your kindness rather than darkened by your ill humor. Kill the unkind words before they pass your lips. Stifle bitter thoughts in your heart. Be considerate, tender, loving to your own.

In our garden are many roses. Some of them are white and some are red.
Really, I am very fond of roses. But I want them now, not when I am dead.
Don't wait to show me your affection When the earth is piled above my head;
In your garden there are many roses, But I want them now, not when I'm dead.

The Family Cough Medicine.

In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50c. bottles cured me of pneumonia." Thousands of other families have been equally benefited and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung troubles. Every dose helps. Price 50c. and \$1.00. All druggists.

ULYSSES.

The infant child of A. J. Austin and wife died last Sunday night and was buried Tuesday in the family grave yard. Rev. M. J. Allen, of Lomansville conducted the burial services. The bereaved family has the sympathy of the entire neighborhood.

Selsus McGuire, of Johnson-co. and Miss Martha Lyons, of Lowmansville were married recently. They are both excellent young people.

There was a large congregation of people attended the United Baptist Association at Lowmansville. Baz and Keene Vanhoose, two stock traders of Johnson-co. were here last week.

Monroe Borders and wife and Mrs. Fannie DeFord have gone to South Solon, O., to visit relatives.

WHAT AILS STATE OF KENTUCKY

Traveler Ascertained Facts About One Community

CHANGE IN TAX LAWS NEEDED

Why Are 600,000 of Kentucky's People Living in Other States?—A True Story With a Moral—What Do You Think About These Conditions?

A traveler recently, while waiting to change cars at a little town in Southeastern Kentucky, had a conversation with an intelligent business man of the place and ascertained the following facts:

"What is your population?" he asked.
"About two thousand."
"What is your principal industry?"
"We have none, unless stores count."
"Have you no factories?"
"None except a tombstone maker."
"How is your population employed?"
"Well, we have fifty-two stores, nine hotels and restaurants, two newspapers, one laundry, one photograph gallery and two banks."
"You seem to have good railroad facilities."
"Yes, we have railroads running north, south, east and west; twenty-six passenger trains in and out every day and no end of freight trains."

"What does the surrounding country produce?"
"Coal, timber, clay, stone, corn, wheat, tobacco, fruit and vegetables."
"What becomes of all these?"
"They are shipped to different parts of the country."

"Has your town increased in population?"
"Not much in the past twenty-five years."
"How are your young people employed?"
"They mostly drift away and get work in the cities."

"Has it never occurred to you to start a few factories and keep them at home?"

"Yes, it has been tried, and we at one time had a commercial club, whose aim it was to get some factories here, but they couldn't seem to do anything."

"What were the obstacles?"
"Well, some people were induced to come here and found cheap land, cheap fuel, good shipping facilities, but no labor, and some of the inquisitive ones asked about taxes, etc., and nothing came of it."

"What is the trouble with your taxes?"
"Well, you see, we have the general property tax in Kentucky, and when they were shown the assessors' lists and found they had to pay taxes on about seventy-five different kinds of property, and all at the same rate, they ducked."

"Is this true about the taxes?"

"Well, it is pretty near the facts. The city and county and state and schools all have to be paid, and if a man starts a factory he has to pay on his machinery, his raw material and finished goods; his cash and accounts, and, of course, on his land and buildings, and a good many other things, including his watch and stickpin, and, if he wants to educate his children, he must pay on the books and piano and his horse and buggy and almost everything but his shirt, and the trouble is, he never knows exactly what his taxes will be. If he omits any of the seventy-five things the legislature could think of and the miscellaneous things he must think of himself, there is the revenue agent who gets a commission on anything he can find, and then there is the county equalization board, which scrutinizes his returns and adds what it likes, and then the state board at Frankfort takes a whack at it and generally raises the whole list, and it simply keeps everybody going who has anything to be taxed."

"Why don't you change the tax law?"
"Well, they put the law relating to revenue and taxation in the state constitution, and it takes about five years to erect a change, and it is hard to get the voters to understand the question. The last legislature passed an amendment and it will be voted on at the November (1913) election, and if it is ratified the change will be made."

"I live in Pennsylvania, and every town in that state as large as yours has a factory of some kind, and many of them several. They employ the young men and women and keep them and the money they earn at home. But here comes my train, and all I can say is, you people should wake up, and if your tax laws are oppressive, change them, and your state will blossom like the rose."

"Well, good-bye, stranger. I intend to vote for the amendment myself, and may be others will do the same. It can't be any worse than the present system, and I surely would like to see some smokestacks looming up in these parts. Farewell."

FROM REPORT OF KENTUCKY TAX REVISION COMMISSION, 1910.

"So long as the state adheres to its present system of taxation fixed by constitutional provisions, it will impose upon its citizens a very serious handicap in the competition with the citizens of other states more favored in their tax laws, and must inevitably lose both desirable population and much needed capital."

PIKE COUNTY NEWS

CONSOLIDATION PLANS BIG POWER SUPPLY.

Several Eastern Kentucky towns are to be furnished with electric current for lighting and power purposes from the two immense power stations of the Consolidation Coal company at Van Lear and Jenkins, according to a plan now being acted upon. The company is now constructing a long-distance power line connection of 65 miles length via Beaver creek between the two power stations, which will make it possible for one plant to supply current to the other in the event of break downs, and from this several branches will feed towns along the route.

The Pike Light & Power company has entered into a contract with the company, under which a branch from the main line will be taken off on Beaver and run to Pikeville over a distance of twelve miles, and from this current is to be supplied to Pikeville for lighting and power purposes. The arrangement will be complete, according to the company's engineers, by Dec. 1, and the city will be supplied with current by day, as well as by night. The new current will be furnished to Pikeville consumers at a 10 per cent. reduction from present prices, and the power station now in use here will be closed to give place to a distributing sub-station.

At present, Paintsville is being supplied with current for lighting from the Van Lear plant, 5 miles away, and Whitesburg will at an early date receive the same service from Jenkins. McRoberts and other small mining settlements near Jenkins are now supplied from the Jenkins plant, and a line will be built down Elkhorn creek to supply power for mining and lighting purposes to Elkhorn city, Marrowbone and Shelby creeks. The Beaver creek line will supply Watsontown, Weeksburg and Prestonsburg on its way down the creek. Auxier and many other mining towns will also be included in the arrangement.

Still further expansion of the plan will be undertaken by the company as soon as the present plan is completed, and in order to meet the demand the enormous plant at Jenkins will have its strength increased by the addition of three extra generators at once, which will raise the total strength from 6,000 kilowatts to 15,000, at 40,000 volts pressure.

ANOTHER DAMAGE VERDICT.

In the case of William Wrenchy, a miner, against the Big Branch Coal company for injuries sustained in the company's mines on Marrowbone creek last summer, the circuit court here rendered a verdict in favor of Wrenchy for \$1,000 last Friday. Wrenchy asked for \$3,000. Judge A. J. Kirk, of Paintsville presided as special judge.

J. D. CAUDILL HURT.

A barn loft in which 10 tons of baled hay were stored gave way under the strain of the weight last Friday morning and came down upon John D. Caudill and his son Samuel while they were at work on the ground floor, and both narrowly escaped death. Their lives were

saved by a stack of lumber three feet high lying on the ground, which broke the force of the fall. The boy came out unhurt, but Mr. Caudill was badly bruised up, and was carried in a fainting condition to his home. He is now recovering.

C. AND O. MAY BUY SHELBY CREEK ROAD.

Information has reached here of the intention of the C. and O. to absorb the new Shelby creek railroad now owned by the B. and O. The fact that approximately 1,000,000 tons of coal are hauled from the Jenkins mines each year over this road to the C. and O. junction at the mouth of Shelby, where it is hauled from thence by the C. & O. to market, makes it a very valuable acquisition for the latter company, while its isolation from the B. and O., the nearest point of which is more than a 100 miles away, renders it of very little practical value to its present owner.

SANTIAGO HERO TO VISIT PIKEVILLE.

Pikeville college, by the aid of several of the city's business men, has secured a lecture program from the Coyt Lyceum Bureau consisting of five numbers, for the benefit of the general public, as well as the school. The first number, 12 billed for Oct. 23, and the other four are to follow successively 30 days apart. It has been announced by the Bureau that Lieut. Richmond Pearson Hobson, hero of the attempt to bottle up the Spanish fleet in the harbor, at Santiago will make his appearance here in February to tell of his daring adventure in his own words.

It will be remembered that, acting under orders, when he learned that the Spanish fleet under admiral Cervera had entered the harbor he ran the Merrimac into the channel that connects the harbor with the open sea and sank her across-channel, and then swam to the Spanish flagship Christobal Colon, not knowing whether death or imprisonment awaited him there. Happily the latter, and he spent several days in Morro Castle. On his arrival in New York harbor after his release he was greeted with a fusillade of kisses by the ladies of New York.

CONTEST CASE TO BE RETRIED HERE.

When Gov. McCreary appointed Allie W. Young to sit as special judge on the celebrated contest case between Judge J. M. Roberson and present acting circuit Judge J. F. Butler last May, it was expected by the public that the controversy over who was lawfully elected to the circuit judge's bench of the new 35th Judicial District in November, 1912 would be speedily settled. But such is not the case, however. At the opening of the trial Judge Young expressed a desire to have the case speedily disposed of, and after a motion was entered by the Plaintiff for a continuance, which was overruled, he agreed to take the record, evidence and pleadings with him and decide the case at Morehead. He was recently announced that he had certified the case back to the Pike circuit court for

a re-hearing and that it will be tried, probably at the present term under another special judge, who has not yet been named by the Governor.

The date of the trial has not yet been set, but it will probably be docketed for next week, after which the term closes.

LOCATE STATE LINE IN HALL CASE.

A corps of government engineers will go next week to the Bluehead Notch of the Cumberland mountains the scene of the Ambuscade murdering of revenue officers Stone and Hamey and wounding of Potter last May, to locate the exact line between Virginia and Kentucky. David Hall, Riley Hall and negro Tom Riddle, the three men held charged with the crime, have asked that the case be transferred from the Kentucky district court of the U. S. to Virginia, and before the request can be either granted or refused it must first be ascertained which state the crime was committed in.

LADIES WANT HAND IN POLITICS.

Last Tuesday (registration day) the women folks of Pikeville let it be known that they wanted a vote. They say the men have been running this thing called politics to suit themselves about long enough, and that there has got to be a "divvy." You men folks who take a sneak out into some concealed corner to take a drink on election day out of a bottle of corn licker that the blackest nigger in Pike-co. has taken a drink out of just before you, and then go home and cuss around because things ain't neat and tidy just to your notion—all of you have got to be sorter careful hereafter, because the women are going to be right on the job.

Maybe you candidates who peddle liquor on election day are not discouraged by the fact that only a small percentage of Pikeville women registered, lent it is said by man who know that next year a solid array of 90 per cent. of the ladies of the town and surrounding country will have their names on the registration book, and they will exert a weighty influence toward purifying politics.

Mrs. I. N. Fannin, Mrs. R. T. Huffman and Mrs. L. L. Stone were the first ladies to register at the lower ward, and Mrs. Ella Keel, Mrs. Butler Adkins and Miss Anna Keel were the first to register at the upper ward.

KILLED IN MINE.

Robt. Thacker, 19, was instantly killed in the mines of the Shelby Coal Co. Wednesday. He was removing pillars from an entry in the mine, it is said, when a fall of slate broke his neck.

STATE BACTERIOLOGIST SAYS DIPHTHERIA.

About ten cases of diphtheria have developed in Pikeville during the past month, but the physicians differed in the diagnosis. Health officer Z. A. Thompson, who from the beginning held that it was the dreaded disease, sent a specimen from the case of little Macey Robinson, daughter of the C. and O. watchman, to the State Bacteriologist and a telegram came Wednesday declaring it to be diphtheria.

It is very probable that immediate action will be taken to avoid an epidemic.

TWO CONVICTED OF MANSLAUGHTER.

Joseph Wireman and son Morgan were placed on trial Wednesday charged with killing Wirt Harris here one year ago. The father was acquitted but the son was found guilty of manslaughter and sentenced 2 to 21 years. The case will be appealed.

Sam Steele, colored, charged with killing Curtis Anderson, colored, in the Breaks in September, was also convicted of manslaughter and given the usual sentence.

CAKE WALK AT PRESBYTERIAN CHURCH.

The ladies of the Presbyterian church will entertain the public to a Cake Walk party at the church building this evening at 7 o'clock. Refreshments of several kinds will be served and a small admission will be charged.

LOCAL AND PERSONAL.

Arthur Archer, of Prestonsburg and J. Wheeler Davidson spent Sunday here.

John Williamson, of Crowder City, Okla., a former Pikeville citizen, is here for a few days as the guest of his daughter, Mrs. H. Pauley, and other friends.

Willie Fuller, who has been at work at Hazard, Ky., for several weeks, is at home for a visit to his parents.

Morrie Mosrie, of Jenkins has

been here for a few days on business.

J. M. Bailey, of Huntington, W. Va., a former Pikeville merchant, was here for several days this week for the purpose of erecting a monument over the graves of his boys, Harry and Willie, who lie buried in Pikeville cemetery.

The two small dwelling houses on Auxier-av. opposite the Greer root and herb plant have been removed to the Childers lot at the foot of Fourth-st., and a brick structure will be built on the spot for Mr. Greer's herbs.

Morell Morris is preparing to build a handsome 2-story frame residence on his lot at the corner of Third-st. and Scott-av.

SOCIETY.

Miss Pauline Snyder, of Uniontown, Pa., has been the guest of Miss Mary Morgan at her home on Scott-av. for several days.

W. J. Myers, attorney for Kelley Bros., who have just finished paving the streets of Pikeville, will be married to a Miss Newman of Ironton at once. The bride-to-be is a stranger to Pikeville, but Mr. Myers has been here frequently, and is well known in this locality.

A NARROW ESCAPE.
Mrs. Nona Wilson Alexiou, daughter of Billie Wilson, while automobile riding with five others, was thrown over an embankment about thirty feet. They started out for a pleasure trip from Middlesboro, Ky., into Virginia, and going full speed ran into a bridge and all were thrown out, but none hurt except Mrs. Alexiou. She is in a hospital at Middlesboro and was in a critical condition, but is thought to be improving.

Mrs. Wilson has gone to Middlesboro to be with her daughter.

BLACK EYES.

YOU CAN'T EAT APPETITE POOR

Multitudes of people lose their appetite. Simply don't care for anything to eat. The dinner bell has no interest to them. They loathe their breakfast. They may nibble a little of this and a little of that, but they do not care for it.

Lunch has lost all of its charms, although they try to eat something. Dinner about the same.

There is something positively wrong, of course, but no disease that can be named. Just out of sorts. That is all.

It is in this kind of a condition that Peruna acts very beneficially.

After using Peruna, interest in food is revived. Beginning with each meal a spoonful of Peruna before each meal will generally quickly improve the appetite and help the digestion.

Thousands of people can testify to this. Liberated from a slavery that is almost unbearable. The slavery of having no interest in life. All used up. Yet one does not know exactly why. Take Peruna before each meal. Skies will get blue again. Fields will look green once more and life will be pleasant. You will feel that you are good for something and the world is a good place to live in. Peruna will do it. Not as an artificial stimulant. Simply a tonic that stimulates appetite in a natural way.

Those who object to liquid medicines can now obtain Peruna Tablets.

Letcher County News Notes.

WHITESBURG, Ky., Oct. 7.—The Vansant Kitchen Lumber Co.'s big band mill is being put rapidly into readiness to begin sawing a large amount of lumber for the Mineral Fuel Co. on Pottery fork in the coal fields where the company is beginning work on another industrial city of considerable magnitude. The mill was brought from Joe's Branch immediately below Jenkins, where a large amount of lumber was sawed for the Consolidation Coal company, used in the vast building operations there. The mill will give employment to several hundred hands. John Q. Hollbrook is getting well into sawing a million feet of lumber near Fleming, the new city on Wright's fork, the Mineral Fuel Co.'s city, which has established a most phenomenal record in present day building activity.

Physicians of Whitesburg are considerably baffled over the seriousness of a form of whooping cough, together with colds, which has been raging in the vicinity of Pine creek and Mill creek near Mayk for the past few days, during which time five deaths have occurred.

Thursday evening of last week a sad happening occurred on Big Cow as creek, a few miles east of here. During the absence of parents from home the little 6-year-old son of Isom Miles shot and killed his little 4-year-old sister. The boy was playing with a long neglected Winchester rifle, 22-calibre, which was thought to contain no balls, when the little sister said, jokingly, "Shoot me, brother." He leveled the gun, pulled the trigger. To the boy's great surprise a shot rang out; the ball passed through his little sister's forehead, killing her instantly. The brains were splattered over the floor. The parents are grief-stricken.

Dr. Stucky and Banks, of Lexington, with three trained nurses and a stenographer, arrived at Hindman, Knott-co., a few days ago where they will conduct a clinic on trachoma, tuberculosis and hookworm, all of which are said to exist more or less throughout the mountain counties. Hookworm is said to exist in a large number of people in the several mining towns in the coal fields.

It is hoped that much good will be accomplished by their efforts.

A man named Gose, charged with selling cocaine, the dangerous drug, was arrested here a day or so ago and placed in jail awaiting the action of the grand jury. It is said that Gose made a regular business of peddling the drug.
